All Purpose Mix 4-6-2
A gentle, non-burning fertilizer perfect for vegetables, herbs, flowers and container plants. All Purpose mix is also ideal for all types of transplants. Formulated with top quality organic ingredients and designed to deliver a steady supply of essential nutrients to your plants while enhancing soil fertility and microbial activity naturally.

Organic Production
Down To Earth™ utilizes high quality material inputs that meet or exceed the standards set forth by the USDA National Organic Program (NOP), and that are approved for use in organic crop production.

Most of our products are currently listed on the OMRI Products List or CDFA Organic Input Materials List. Please note the “OMRI” and “CDFA” logos throughout the catalog that identify which products have been reviewed to determine that they are NOP compliant.

Organic Fertilizers
For more than 30 years, Down To Earth™ has been carefully formulating plant care, crop fertilization and soil management.

Down To Earth™ takes pride in offering only the highest quality ingredients, which contributes to an effective and environmentally friendly approach to plant care, crop fertilization and soil management.

For more than 30 years, Down To Earth™ has been carefully formulating fertilizers and soil amendments from the best sources of organic plant nutrients in ideal proportions, without the use of synthetics, growth stimulants, or low quality fillers, such as poultry waste.

So, whether it’s a multi-purpose blend, single ingredient fertilizer, or specialized soil amendment, you can be confident that you are providing your customers, garden or farm the best product available.

Down To Earth™ Premium Natural and Organic Fertilizers
Trusted Quality since 1980

Mini Fertilizer Boxes

Organic Blend Assortment #723602 - 24 case of 24
• Acid Mix
• All Purpose
• Starter Mix
• Rose & Flower Mix

Single Ingredient Assortment #723600 - 24 case of 24
• Bat Guano
• Fish Bone Meal
• Blood Meal
• Kelp Meal

Organic Fertilizer Blends

Fertilizer blends are sold only as a case of six
Please note: there may be a difference between the case and box packaging for certain fertilizers. (*) indicates generic (sunflower) packaging for bags. Large boxes are sold only as a case of six.

Fertilizer Blends

Single Ingredient Fertilizers

AZOMITE™ Graded
The 4 to 2 of Minerals Including Trace Elements is a mined volcanic mineral product that has been granulated for easy application. An excellent way to re-minespoiled depleted garden soils, composts or potting mixes. AZOMITE is proven to increase crop yield, quality and overall plant growth.

AZOMITE SR Powder
Slow-Release grade of AZOMITE with particle sizes ranging from 4 to 30 mesh. Ideal for blending with other fertilizer materials and amendments as a trace mineral source to help meet plant nutritional needs. An economical way to apply and re-mineralize soils, composts and potting mixes.

Alfalfa Meal 2-0-0-2.5 An excellent soil conditioner. Alfalfa Meal is a rich source of trace elements and natural growth regulators. Recommend for all flowering shrubs and especially roses. Alfalfa Meal is more growth and promotes larger, more plentiful blooms. It is also used as a compost bio-activator due to its high organic matter content and ideal C:N ratio.

Blood Meal 12-0-0 A high nitrogen source. DTE's Blood Meal is guaranteed to promote rapid, green growth. A wonderful fertilizer for heavy feeders like corn, spinach, salad greens and peas in the early spring. It also helps composter piles heat up and break down faster.

Cottonseed Meal 6-2-1 A wonderful source of phosphorus and calcium naturally mined from ancient seed husks. Cottonseed Meal is easy to apply and can be used effectively for all plants. Cottonseed Meal is excellent for vegetables that need a low pH and is perfect for fertilizing acidic shrubs, berries and trees when used as a slow-release fertilizer.

Crab Meal 4-3-0 Crab Meal is a superb source of organic nutrients for vegetable gardens and flower beds and is especially good for bed soil. Crab Meal enhances beneficial soil microorganisms and improves soil structure due to its rich clay content and also makes an incredible compost bio-activator.

Fish Bone Meal 3-1-2 Fish Bone Meal is a marine based fertilizer alternative to traditional bone meal and is wonderful for all flowering plants, trees and shrubs. A great source of Phosphorus and Calcium. Fish Bone Meal also contains a small amount of Nitrogen and is ideal for fertilizing for new garden beds, perennials, and bulbs.

Fish Meal 8-0-0 Fish Meal is an excellent source of Nitrogen and Phosphorus and a good source of trace elements for marine life. Fish Meal also makes an excellent organic starter for aquariums and fish tanks. Fish Meal’s nutrient profile makes it the perfect fertilizer for new garden beds, perennials and bulbs.

Alfalfa Meal 2-0-0-2.5 An excellent soil conditioner. Alfalfa Meal is a rich source of trace elements and natural growth regulators. Recommend for all flowering shrubs and especially roses. Alfalfa Meal is more growth and promotes larger, more plentiful blooms. It is also used as a compost bio-activator due to its high organic matter content and ideal C:N ratio.
